Relevant Experience

Software Engineer · Saga

Nov 2025 — Present

Amsterdam, Netherlands

- Build AI-powered products for lawyers across frontend, backend, AI features, and product design using TypeScript, Next.js, and modern AI providers.

Software Engineer · Radity

Sep 2023 — Nov 2025

Zürich, Switzerland

- Built and shipped insurance portals and large client websites across React, Next.js, NestJS, SvelteKit, Astro, GraphQL, PostgreSQL, and related stacks.
- Contributed as a full-stack engineer to a modern insurance product for THREE Insurance by Berkshire Hathaway.
- Migrated a legacy insurance claims portal while improving scalability, maintainability, accessibility, and performance.
- Worked closely with product, design, and engineering teammates across distributed client teams.

Software Engineer · DT Cloud

Jan 2023 — Sep 2023

Antalya, Türkiye

- Built IaaS and PaaS cloud product experiences using TypeScript, React, Node.js, Chakra UI, and related tools.
- Owned product features end to end, from backend services to frontend interfaces.
- Collaborated with experienced engineers to ship and test production cloud software.
